

# THE SPIRIT OF BDSM

Let us posit, for the sake of having some fun, that there is a Spirit of BDSM, an entity that goes around inspiring people to pervy deeds and generally causing all manner of enjoyment. Let us further posit that this spirit can be put to work for our benefit, just as we would put to work other spirits, such as the 72 spirits of the Lesser Key of Solomon.

Well, I did some work and found him. Here is his sigil!

Having found this useful fellow, the next thing for us is to put him to work! And that is what we will do. His job will be to go forth into the world around us and convert all sentient beings to the path of BDSM, that should keep him busy for a while.

Ok, stop giggling, this is serious stuff here!

To get him going and help him to do his thing, you will need not only his sigil but a radionic unit, the radiobox will work perfectly for this, and the satellite picture of the target area, unless you really want to have some good, nasty fun and beam it at the house of someone who has publicly attacked BDSM, in which case you would need a photograph of the house.

What you are going to be doing is essentially an inorcism, casting a spirit into someone, in this case lots of people at the same time.

Place the sigil on the transmission side of the machine. Once you have done that, set the rate on the machine and then place the photograph of the target area on the output side. Let the machine run while saying, "Spirit of BDSM, I command you to enter into the bodies of the people living in x." Repeat this over and over again until you get the feeling that he is going to do his job, at which time you just let the machine go for a week or so.

Repeat as desired.

Of course this method will also work for individuals, so I am sure that you can think of all manner of delightful mischief that can be done.

And remember:

We shall abolish consent in our lifetime!
